- Coordinate home health visits (if needed) and follow-up medical appointments.

- Promote health literacy by providing patient education with regards to clients' illnesses, medications, preventative measures, treatment management and overall general health.
- Discharge planning providing client with a list of current medications, future medical appointments, insurance information and other applicable medical information.
- Arrange transportation for clients to and from medical appointments if needed to advocate for client needs.
- Transport clients as needed using SMCS vehicles to medical appointments or other program-related destinations.
- Report emergency situations to Supervisor/Director and document incident
- Seek proper level of care to assess and treat medical complications.
- Initiate medical response system when appropriate.
- Support client recuperation by providing necessary items and space needed to rehabilitate and assisting with the upkeep of the facility.

Administrative/ Record Keeping

- Enter client information into HMIS and other documentation.
- Complete and update Medication, Vitals, and/or Diabetic logs
- Perform administrative tasks such as answering phones and filing paperwork.
- Maintain proper inventory of medical supplies and medications.

Compliance/Safety

- Maintain confidentiality in accordance with HIPAA guidelines and standards.
- Provide clients with proper compliance forms upon admission to support adherence to program rules.
- Provide care utilizing infection control measures that protect both staff and clients, in accordance with OSHA standards.
- Conduct medication reconciliation and ensure proper disposal and pickup of biomedical and pharmaceutical waste in accordance with SMCS's Medication Policy.
- Maintain a safe and sanitary environment in the med room, wound care room, and med storage areas.
- Ensure all medical equipment remains in proper working condition.
- Utilize trauma-informed care approaches to support the complex medical needs of individuals experiencing homelessness, with attention to both past trauma and present health challenges.
